Sanosil® Easy Fog Portable Cold Fogging Unit

The Sanosil® Easy Fog is a portable, electric cold fogging unit for the aerosol application of Sanosil® Disinfectants. It is the ideal device for simple and fast surface disinfection of small and medium-sized areas. The universal motor operates at a speed of approx. 20'000 r.p.m., creating a powerful air stream. The Sanosil® Disinfectants are sprayed in aerosol or mist sized droplets through three rugged nylon nozzles. The mist slowly settles on the surfaces to be treated and, thanks to the small size of the droplets, even reaches corners and places difficult to access.

Technical Data

Dimensions:	Length 330mm	Width 203mm	Height 356mm
Weight:	3 kg (empty)		
Tank Capacity:	approx. 4 litres		
Motor:	220 Volt	3.5 Amps	
Flow Rate:	0 - 16 litres/hour (adjustable low/med/high)		
Projection Range:	approx. 7 m		
Particle Size:	7 - 30 µm		

Our operating instructions, both oral and written, are based on extensive tests. Our advice is given to the best of our existing knowledge but is not binding insofar as the application and the storage conditions lie beyond our direct control. The description of the products and details of the properties of the compounds do not subsume any liability for damage. Furthermore, our usual conditions of delivery and payment apply.
